

# FROM SEEDS TO FORESTS

Build on your temporary uses towards legacy and long term impact

## MISSION

State your mission here

Use keywords or brief statements to articulate your mission (ex. #health #wellbeing #safety #liveability)

### EMBRACE

Creating **awareness, interest** and **motivation** #narratives #agendas #engagement

### EMPOWER

Creating **knowledge, capacities** & **skills** #learning, skilling #knowledge #collaboration

### ENABLE

Creating **power, agency** & **legitimacy** #regulation #governance #funding

How could your garden grow as a forest? What would allow many different species to grow, coexist as a wild ecosystem?

Looking at the seeds, what opportunities are emerging for them to become gardens? What is proving to flow water and nutrients in your ecosystem? What is instead **blocking** or **hindering** your seeds?

SEEDS OF CHANGE
